Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

DETAILED ACTION

Continued Examination Under 37 CFR 1.114

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after allowance or after an Office action under *Ex Parte Quayle*, 25 USPQ 74, 453 O.G. 213 (Comm'r Pat. 1935). Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, prosecution in this application has been reopened pursuant to 37 CFR 1.114. Applicant's submission filed on March 21, 2005 has been entered.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 10, 12, 21, 25 and 27 are rejected under 35 U.S.C. 102(b) as being anticipated by Griffith et al. Griffith et al teaches a scanning type display optical system (10) having a deflection device (H) deflecting a light beam from a light source in two dimensions, and a first optical system (18e; Fig. 14) forming a first image to be displayed with the light beam deflected by the deflection device and including a plurality of optical elements with optical powers; where a first optical element (E1e) of the optical elements, which is arranged on the side closest to the deflection device, is a biconcave

Art Unit: 2873

lens; and a second optical element (E6e) of the optical elements, which is arranged on the side closest to a first image plane, is a meniscus lens whose convex surface surfaces toward the deflection device. There is a reflective surface (G) guiding the light beam from the light source to the deflection device.

Allowable Subject Matter

Claims 1-9, 20, 22-23 and 24 are allowed.

Claims 11, 13-19 and 26 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

The following is a statement of reasons for the indication of allowable subject matter: Claims 1-9, 11, 13-20, 22-24 and 26 are considered allowable for reasons of record set forth in the Office Action of December 20, 2004.

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Ono (Fig. 3) is cited to show a similar optical system with a biconcave lens and a positive meniscus lens facing in the proper orientation.
